### Plastic Speed Ramps - 500 mm

www.ustunas.com

#### DESCRIPTION:

Plastic speed bumps are a great solution if you are looking to reduce traffic speeds and increase pedestrian safety in busy traffic areas or in closed spaces that need a limited speed like parking. Speed bumps are made to force drivers to slow down.

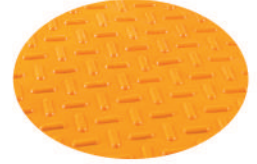

#### FEATURES:

- Manufactured from high-quality material.
- Easy use with a pratic installation method.
- Excellent Night-day visibility with cat's eyes reflectors / reflective glass beads.
- Rigid surface for High impact resistant body.
- Appropriate design and dimensions to reduce speed without damage on wheel trim.
- Adequate to any road width thanks to a modular design.
- Strong resistance to weather conditions -20° +60° C.
- UV stabilized to increase durability.
- Designed for extra grip on the road.
- ISO 9001: 2008

3 x 3 White and Red  
Reflective Glass Bends  
3 x 3 Beyaz ve Kırmızı  
Cam Boncukları

Rigid surface  
Sert Yüzey

**PRODUCTION METHOD :** Speed ramps are produced by injection moulding method

#### MATERIAL

Speed Ramps are made of Poly propylene Carbonate, manufactured and intended to sharply reduce the speed of vehicles. Ramps are specially developed and designed in a very special form that will not damage or harm vehi-

**SHAPE AND SIZE:** Illustrated Figures of ramps above, body size is 500 \* 500 \*45 mm.
